**Note:**

- a) The Instructor may add/delete/modify/tune experiments, wherever he/she feels in a justified manner
- b) The subject teachers are suggested to use the concept of project based learning. The subject teacher may give certain use cases/case studies where student is able to apply multiple concepts in one single program
- c) It is also suggested that open source tools should be preferred to conduct the lab. Some open source online compiler to conduct the C lab are as follows:

- ❖ <https://www.jdoodle.com/c-online-compiler/>
- ❖ [https://www.tutorialspoint.com/compile\\_c\\_online.php](https://www.tutorialspoint.com/compile_c_online.php)
